

Lakeview College of Nursing

EMPLOYMENT AT PROGRAM COMPLETION

Employment is one of the elements that measure the success of our graduates. We track the employment of our graduates at the time of program completion and again six months after graduation. The following charts show the percentage employed for the May 2024 and December 2023 graduating cohorts.

May 2024 Graduates

At program completion, 61% had already accepted a nursing position, 28% were interviewing for positions, and 11% had no response.

December 2023 Graduates

At program completion, 67% of the graduates had already accepted a nursing position, and 33% were interviewing.
